

90% of People Are Checking Their Blood Pressure

90% of People Are Checking Their Blood Pressure Wrong! Here's How to Do It Right

90% of People Are Checking Their Blood Pressure Wrong! Here's How to Do It Right

Blood pressure is one of the most important health measurements, but a new study finds that more than 90% of people make mistakes when checking their own blood pressure. This can lead to inaccurate readings and a false sense of security, or even to misdiagnosis of hypertension.
