1.

Platform:

- Online Travel Agencies (OTAs): OTAs are third-party platforms that aggregate travel services from various suppliers and allow users to compare and book travel products.
- Direct Booking Websites: These are the official websites of airlines, hotels, and other travel service providers, where users can directly book their travel products.
- Mobile Applications: With the increasing usage of smartphones, many travelers prefer to book their travel products through mobile applications for convenience and ease of use.

2.

Booking Mode:

- Business-to-Consumer (B2C): This mode involves direct transactions between travel service providers and individual travelers.
- Business-to-Business (B2B): This mode focuses on travel agencies and companies that book travel products on behalf of their clients, such as corporate travel management.
