

# Next Generation Sequencing Market Size is expected to grow USD 58,254.4 million by 2033aa

According to the Market Statsville Group (MSG), the [global next generation sequencing market](#) size is expected to grow from USD 9,345.0 million in 2022 to USD 58,254.4 million by 2033, at a CAGR of 18.1% from 2023 to 2033.

A newly published report by Market Statsville Group (MSG), titled Global NextGeneration Sequencing Market provides an exhaustive analysis of significant industry insights and historical and projected global market figures. MSG expects the global Next Generation Sequencing market will showcase an impressive CAGR from 2024 to 2033. The comprehensive Next Generation Sequencing market research study highlights market dynamics, value chain analysis, regulatory framework, growing investment hotspots, competitive landscape, geographical landscape, and extensive market segments.

This report contains the historic, present, and forecast analysis of the NextGeneration Sequencing market at segmental, regional, and country-level, including the following market information:

- Global Next Generation Sequencing Market Revenue, 2018-2023, 2024-2033, (US\$ Millions)
- Global Next Generation Sequencing Market Sales Volume, 2018-2023, 2024-2033, (Units)
- Share of the top five Next Generation Sequencing companies in 2023(%)

Market Statsville Group™ has assessed thoroughly the Next Generation Sequencing manufacturers, suppliers, distributors, and industry experts in its latest industry report. A 5-year historical analysis (value/volume) and a 10-year forecast analysis (value/volume) of the market size are included in the report. The report also offers installed base, production/consumption analysis, import/export trends, pricing trend analysis, and consumption statistics.

The research provides an in-depth analysis of the Next Generation Sequencing market, examining its many components at the segmental, regional, and country levels. Its primary goal is to provide a comprehensive market segmentation based on type, application, and end-use industries. The research report additionally provides an analysis of the growth of each segment, aiming to provide a precise estimation and future sales possibilities during the period of 2024-2033. The analysis provides valuable strategic insights and informative content for users, enabling them to effectively leverage business opportunities and facilitate growth.

## Next Generation Sequencing Market Segments Covered in this report are:

By Product & Services Service Outlook (Sales, USD Billion, 2019-2033)

- Consumables
- Sample Preparation
- DNA Fragmentation
- End Repair
