

Embrace the astonishing beauty of Rose Quartz Stone

Don't let the pink colour of the rose quartz stone fool you, also referred to as a love stone, heart stone, pink quartz or bohemian ruby, rose quartz stone is undoubtedly the stone of unconditional love and is known for attracting love. While its light blush hue is soft and beautiful, its healing properties and powers are potent and strong. The meanings and powers that are thought to be connected with the rose quartz are fascinating. Like its name, rose quartz stone has a dusky, light, reddish-pink or rosy-pink appearance. Just like other rocks and gemstones, rose quartz stone also comes from the earth and contains minerals such as iron, titanium or manganese and mental, emotional and spiritual healing powers. Precious Gem Surfaces is the leading Rose Quartz manufacturer in India. Because of its numerous benefits, people from all across the world have been using it from ancient times and still consider it an important talisman for relationships.
