NOW, LETS' CHECK BENEFITS IF YOU OUTSOURCE THE FIXED-COST PROJECT.

These benefits are when you are getting the project done by an experienced and strong company like Ibiixo.

Zero Technical Knowledge: While hiring an app developer with a fixed cost per project, you just need to have your ideas clear about the project. Moreover, if you don't have any technical knowledge this is an amazing option as the company manages everything for you.

More Power: When an individual is working on your project instead of a team, it will surely help you to develop the app with fewer bugs.

Privacy: If you individually hire developers you will have to sign NDA with every individual.
