

WHICH COUNTRIES RECYCLE THE MOST? aa

Remember over time, the statistics are subject to change. To my latest knowledge, the countries that recycle the most are:

1. Germany:
 - Germany is often praised for its robust recycling system. Germany had a recycling rate of over 67%, which includes various materials like paper, glass, plastic, and metal.
2. Slovenia:
 - Slovenia has one of the highest recycling rates in Europe. Last year they achieved a recycling rate of approximately 68%.
3. Sweden:
 - Sweden is known for its advanced waste management and recycling programs. Sweden had a recycling rate of around 49%, and a total waste recovery rate (which includes recycling and energy recovery) of over 99%.
4. Switzerland:
 - Switzerland has a strong focus on recycling and waste management. Last year the recycling rate for household waste was about 52%.
5. Austria:
 - Austria has a well-developed waste management system. Austria's recycling rate was approximately 47%.
6. Belgium:
 - Belgium places a significant emphasis on recycling efforts. Last year the recycling rate for municipal waste was around 46%.
7. Netherlands:
 - The Netherlands is known for its effective waste management practices. The recycling rate for municipal waste was approximately 52%.
8. Luxembourg:
 - Luxembourg is known for its high standards in waste management. Last year the recycling rate for municipal waste was around 41%.
9. Norway:
 - Norway has a strong focus on recycling and environmental sustainability. Last year the recycling rate for household waste was approximately 42%.
10. Finland:
 - Finland places a significant emphasis on recycling and sustainability. The recycling rate for municipal waste was around 42%.
