

Fostering Creativity and Leadership. Kidizens Workshops Coming Soon to Your School!

Excitement is in the air as we gear up to introduce an innovative educational experience to schools near you: Kidizens workshops are on their way! Get ready to embark on a journey of creativity, leadership, and community engagement that will leave a lasting impact on your students. Here's what's in store:

Tailored Workshops for Dynamic Learning

At Kidizens, we understand that every school community is unique. That's why our workshops are meticulously designed to complement your school's curriculum and cater to the specific needs of your students. Last semester, in collaboration with Acton Academy, we pioneered the "Let's Build A Tribe!" program, a four-week initiative aimed at fostering collaboration, creativity, and service within the student body.

Empowering Through LEGO

LEGO isn't just a toy—it's a catalyst for growth and innovation. Through our workshops, students embark on an immersive journey where building LEGO cities serves as a springboard for developing critical life skills. From problem-solving to communication, our activities nurture social-emotional development and empower students to become confident leaders in their communities.
