[Dr. Bhavana Mittal](#), a leading fertility specialist in Delhi, heads the team of experts at this center, providing top-notch care and ensuring high success rates.

Services Offered by Shivam IVF & InFertility Centre

Here are some of the services provided by Shivam IVF & InFertility Centre:

- In Vitro Fertilization (IVF): A highly effective assisted reproductive technology where eggs are fertilized with sperm outside the body and then implanted into the uterus.
- Intrauterine Insemination (IUI): A procedure where sperm is placed directly into a woman's uterus to facilitate fertilization.
- Intracytoplasmic Sperm Injection (ICSI): An advanced IVF technique where a single sperm is injected directly into an egg to enhance the chances of fertilization.
- Egg Donation: Services for women who cannot produce viable eggs, involving the use of eggs donated by another woman.
- Sperm Donation: A solution for male infertility issues, using donated sperm to achieve pregnancy.
- Surrogacy: An option for couples who cannot carry a pregnancy, where another woman carries and delivers the baby.
- Fertility Preservation: Options like egg, sperm, and embryo freezing for individuals who wish to delay parenthood.
- Preimplantation Genetic Testing (PGT): A technique used to identify genetic defects in embryos created through IVF before pregnancy.
- Laparoscopy and Hysteroscopy: Minimally invasive surgeries used for diagnostic and therapeutic purposes in infertility treatment.
