How Much Does Botox Cost?

The average Botox cost depends on a number of factors. The price is determined by the type of the product, its volume and the package. The following is a breakdown of Botox prices:

- Botox comes in two types: medical and cosmetic. The first type is used for muscle-related issues and the second is used in aesthetic medicine. Medical Botox is usually more expensive than cosmetic Botox.
- Botox comes in different sizes. Botox 50IU, and Botox 100IU are among the most popular. The more product is purchased, the higher the price.
