

## What to Expect During an Emergency Dental Visit

If you've never had emergency dental treatment, the process might feel overwhelming. But it's simpler than you think.

Here's what to expect at [Sunrise Dental of Issaquah](#):

- You'll be seen quickly—especially for pain, swelling, or injury
- We'll evaluate the issue with an exam and X-rays (if needed)
- You'll receive a same-day solution when possible—like an extraction, temporary crown, or medication
- We'll explain next steps and help prevent future problems

You don't need a referral or scheduled appointment. Just walk in or call ahead and let us know what's going on. We're open 7 days a week and always ready to help.
