

Coconut Wraps Market is Estimated to Witness High Growth Owing to Rising Health Awareness

The coconut wraps market has been gaining traction over the past few years owing to rising demand for plant-based and natural food products. Coconut wraps are increasingly being preferred over plastic wraps and aluminium foils due to their eco-friendly nature. Made from organic coconut flakes or coconut meat, coconut wraps help retain moisture and freshness of food items. They do not leave behind any chemical residue and can be reused multiple times. The flexibility and elasticity of coconut wraps allows them to wrap irregularly shaped foods effectively. The natural antibacterial properties of coconut keeps foods fresher for longer duration.

The global coconut wraps market is estimated to be valued at US\$ 1.91 Mn in 2024 and is expected to exhibit a CAGR of 6.4% over the forecast period 2024 to 2031.
