## help them heal! naa

Koalas with ????ed paws de??e??te?? need our help. During w??df??e?,these gentle creatures often ??ffe? from painful burns that make it d?ff????tfor them to move and climb trees.

To protect their ??j??ed paws and help them recover, specially made mittensare essential. These soft, protective mittens allow their wo??d? to heal whilepreventing further d?m??e. By providing these mittens, we can give koalas achance to heal and return to the w??d where they belong. Let's join hands inthis effort to help these adorable animals recover and thrive once ?????!
