

It's te?????e! Catching giant octopuses, how fishermen ??t?? millions of giant octopusesaa

Fishermen ??t?? millions of giant octopuses using manual methods and advanced technology.

Usually, they use large tr  ps or nets that are d  o  ed into the dee   sea, where octopuses live.

These traps are often placed near coral reefs or reefs, where octopuses often hide. Once an octopus is ??????t in a net or t???,

it is ?????ed onto a ship.
