

It's a terrible thing! The rescue of kangaroos

It's a terrible thing! The rescue of kangaroos

This image shows a firefighter from a volunteer fire service holding a koala in the midst of a forest fire.

The background features scorched trees and flames, with another firefighter visible in the distance.

The koala, clinging to the firefighter's arm, symbolizes the close relationship between human efforts and the wildlife that often suffers in natural disasters, such as bushfires.
