Requirements:

- First — we are very selective about what we publish.
- We do not allow writers to use AI tools like ChatGPT to create their content — all content must be original and written in your own words. Bonus points for including personal stories and experiential evidence.
- Guest blog posts are reserved for bloggers and authors. If you want to submit an article for a commercial website, it's considered sponsored content. In this case, it's not a guest blog post, nor are you a guest blogger. Please see our [advertising page](#) for rates and conditions.
