

## AUD/USD Bounces Off Two-Year Low at 0.6200 Amid Fed Surprise

The [AUD/USD](#) pair rebounded early Thursday, recovering from a two-year low of 0.6200. This came after a brief pause in the US Dollar's uptrend, driven by the Federal Reserve's unexpected hawkish stance. However, ongoing concerns about China's sluggish economic recovery and upcoming tariff changes under former President Donald Trump weigh on the Australian Dollar's outlook.
