

## Caprice Resources Hits Visible Gold at WA Project, Expands Drilling Efforts

Caprice [Resources](#) Ltd (ASX: CRS) ('the Company', 'Caprice' or 'Caprice Resources') has made exciting strides in its Murchison Goldfields projects, with visible gold discovered at its Cuddingwarra Gold Project, showing promise similar to Westgold's Cue deposits. Meanwhile, at the Island Gold Project, the Company is progressing with a 5,000-metre reverse circulation drilling programme to extend existing gold lodes and prepare for a maiden Mineral Resource Estimate. The programme also targets high-grade gold mineralisation in structural settings akin to Ramelius Resources' "Break of Day" and "Hill 50" deposits, positioning Caprice for strong regional growth.
