Saving money is important if you want to build wealth and reach financial independence. But are you saving enough money to be on track with your financial goals?

Saving \$100k is a major financial milestone, especially before turning thirty. With economic uncertainties and a potential recession, you might wonder if this goal is still achievable.

I'm here to tell you—YES, it absolutely is! I'm not a personal finance expert, but I've learned that with the right strategies, saving \$100k is within reach. I managed to do it in just three years without a six-figure income, and if I can do it, so can you. Let's explore the steps to make this goal your reality!
