

Carbonxt Projects 40% Revenue Growth Ahead of Kentucky Plant Launch

Carbonxt Group Limited has announced a 40% upgrade in projected revenue for FY2025, driven by strong demand for its activated carbon solutions.

The growth comes as the company prepares to launch its state-of-the-art Kentucky manufacturing facility, expected to enhance production capacity and operational efficiency. This milestone aligns with [Carbonxt's](#) commitment to providing innovative environmental solutions and meeting rising market demand.
